

Product Data Sheet: FCNPG010621A

## N-Phenyl Glycine photoinitiator

### CHARACTERISTICS

**CAS Number:** 103-01-5

**Molecular Weight:** 151.17

**Chemical Formula:** C<sub>8</sub>H<sub>9</sub>NO<sub>2</sub>

### Product Specifications

**Characteristics:** white to light tan powder

**Purity(HPLC):** 98.0% min.

**Melting point:** 117 ~ 122 °C

**Loss on drying:** 1.0% max

**Solubility:** Clear solution/No suspended matter

### Packing

20kg net weight, new polylined fiber drums
